

Wednesday November 14, 2018

To whom it may concern,

We would like to inform you that as in last period, there has been a general cost increase;

- of energy market prices (gas + 36%, electricity +13%)
- of labour cost in Czech Republic by +9%
- of packaging cost by +5%
- of transportation costs

Despite this, our company has always committed, where possible, not to transfer these aggravations on its customers.

Unfortunately, today, this situation is not further sustainable and we are forced to review our prices.

Because of this, we anticipate that, starting from 1.1.2019, the existing prices in the General price list will be revalued with an increase equal to

- Basic clear +5 %
- Basic Colored +10 %
- Design line +10
- Technology line +10%
- Plus High-tec options +10%

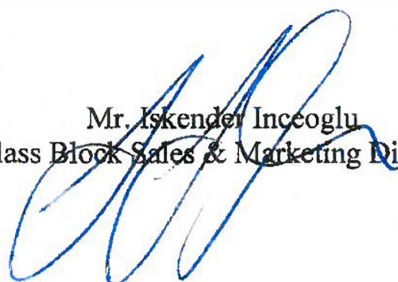

Certain that you will continue to show your appreciation for the continuous efforts that our company is making to improve its standards and the continuous expansion of our proposals.

We remain at your disposal for any further information and trust that you, together with other numerous customers, continue to develop worldwide business.

Our best regards.

Mr. Petr Králík  
Glass Block Business Director

Mr. Iskender Inceoglu  
Glass Block Sales & Marketing Director
